

# THE KIDNEY AND HYPERTENSION CENTER

Nutritional Counseling is now available!

If you have chronic kidney disease stage 3 or 4  
(kidney function of between 15-50%),  
a dietitian is available who can discuss

- ✓ general dietary issues
- ✓ dietary restrictions
- ✓ meal planning

We will ask that you check with your insurance carrier to make sure that this service is covered.

Please ask your doctor about this service.
